EXPERIENCE

CoderCookies

Instructor

Jan. 2018 - Aug. 2018

- Demonstrated excellent communication skills while teaching young students fundamental programming concepts in a classroom setting
- Facilitated the use of online web tools (Scratch, MIT App Inventor) to help students create their own personal coding projects in order to foster a fun and engaging learning environment
- Adapted teaching methods spontaneously to suit the learning styles of various students

Kumon North America Inc.

Teaching Assistant

Oct. 2017 - Aug. 2018

- Instructed students in primary years in advancing their math and reading skills and recorded their progress for future inspection
- Analyzed students' strengths and weaknesses and tailored examples and teaching methods to accommodate these differences
- Developed self-management skills by taking accountability for marked work and informing parents of any concerns

MICBA Forum Italia Community Services

Meal Time Volunteer

Jun. 2013 - Aug. 2018

- Dedicated over 250 hours as a meal server to the residents of a senior retirement home
- Coordinated effectively with a peer to keep track of guests who had been served and to accommodate incoming orders at a fast pace
- Conveyed with a high degree of effectiveness any concerns brought up by the residents to the supervisor and reported any shortage of supplies or issues

SKILLS

- Strong interpersonal and communication skills strengthened from working with diverse students
- Adaptable and versatile in various situations to meet the demands of a fast-paced environment

Languages: Python • C++ • HTML • CSS • JavaScript
• Java • C

Tools: Adobe Suite (InDesign, Photoshop) • Invision
• Microsoft Office Suite • Git

Frameworks: Bootstrap, Angular

Other: Object-Oriented Programming

PROJECTS

Junior Achievement - Steps Inc.

Sep. 2017 - Mar. 2018

- Joined an entrepreneurial program where students found and run a startup company in a short time frame
- Delegated tasks as the production manager to optimize production costs using strong leadership and communication skills
- Demonstrated competency in conflict-resolution and teamwork in order to improve efficiency and maximize work flow

Personal Website

Sep. 2018 - Dec. 2018

- Created and innovatively designed a personal website to using knowledge of HTML, CSS, and JavaScript
- Learned how to develop a user-friendly interface with a simplistic web design
- Employed design and prototyping skills
